**Money & Meaning
Bedo Intra San Francisco 2009**

**Together
we found our BeDo
and what a wonderful
time we had.**

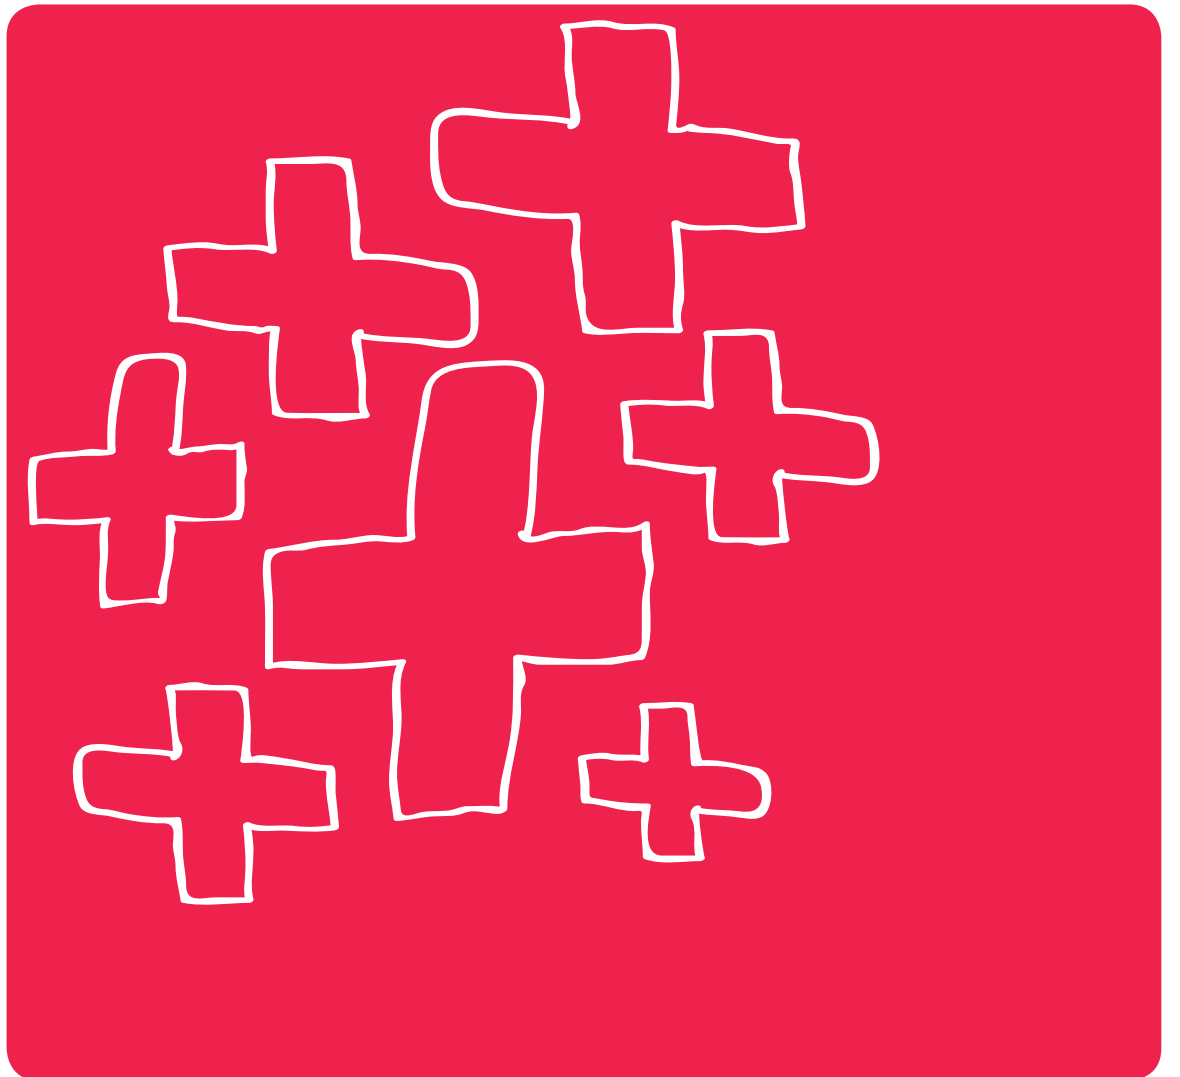

We gathered in September of 2009; in celebration of the beginning of the business to individual revolution and the end of the beginning of BeDo. We are a group of visionaries, corporate leaders, creatives, strategists and thinkers. We do good. We make our impact from the inside. Together we found our BeDo.

Together we listened, thought,
talked, laughed, **adventured**,
learned, explored, developed,
made friends, **celebrated**, ate,
played, networked, watched,
created, felt, developed, sang,
shared, **gained perspectives**,
listened, taught, grasped, dug,
questioned, **cheered**, praised,
dreamed, investigated, and
honored the good in all of **us**.

Business can no longer operate independently from **society** and still expect sustainable financial growth. A **movement** of **social capitalism** and social intrapreneurship is growing, and corporate **leaders** must join in order to survive. We are the visionaries that will carry the **flag** of the new way of **doing** business.
